ANOTHER WONDERFUL EVENT IS WAITING FOR US

WHAT IS VAULTING?

Vaulting is performing *acrobatic exercises on a cantering horse*. The sport is practiced both individually and as a team.

Vaulting is a unique team sport where good cooperation between the vaulters, lungers, and the horse makes it possible to perform beautiful routines to music.

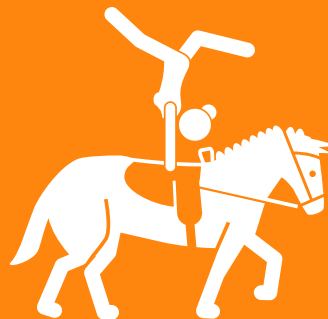

In vaulting, it's very important that the vaulter adapts to the horse's movement. Good technique is essential for this.

CVI ERMELO

The European vaulting elite has enjoyed coming to Ermelo for years. This has helped CVI Ermelo grow into one of the largest international vaulting competitions in the world.

This provides a huge boost and promotion for the sport of vaulting in the Netherlands.

In total, around 400 athletes and coaches participate, and more than 1,500 visitors attend the CVI. On average, 14 different nationalities are represented at our competition.
